This credit union is federally insured by the National Credit Union Administration

*The conditions, rate and fees contained in these Disclosure and Schedules are accurate as of June 1, 2017. For current information call the Credit Union at 972.263.5171

- The Monthly Service Charge can be reduced or eliminated each month with certain activity and status such as debit card use, bill payment, paperless statements, direct deposit, senior citizen status (age 55 or better), public servant status, and longevity with the credit union. Members can also receive bonuses with certain loan activity, which can help to discount the Monthly Service Charge. A \$6 new checking discount will be given for the first two statement cycles to provide time for setting up paperless statements, etc. Contact us for more info.
- You must maintain the required minimum balance in your Account each day to obtain the disclosed Prospective Annual Percentage Yield and avoid the Monthly Service Charge (for Accounts in which the Account balance affects the Monthly Service Charge).
- The entire balance of the Account will earn the dividend rate corresponding to the highest Account balance attained during dividend period.

Rate Information

The Annual Percentage Yield (APY) is a percentage rate reflecting the total amount of dividends paid on an account, based on the dividend rate and the frequency of compounding for a 365-day period. The Dividend Rate & the Annual Percentage Yield may change on a monthly basis, as determined by the Credit Union Board of Directors. Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period. The dividend rate and APY are prospective rates and yields the Credit Union anticipates paying for the dividend period. The dividend rate and APY disclosed on the reverse reflect the dividend rate and APY as of the last dividend declarations date.

Compounding And Crediting

Dividends are compounded monthly & are credited monthly. Dividends are calculated on the full amount in the account each day, subject to minimum balance requirements. The dividend period is monthly, for example, the beginning date for the first dividend period of the calendar year is January 1st, and the ending of such dividend period is January 31st. The dividend declaration date follows the ending date of a dividend period and for this example is February 1. If you close your Account before dividends are credited, you will not receive dividends accrued through the date of withdrawal.

Minimum Balance Requirements

Minimum balance requirements on Credit Union Accounts are disclosed on the reverse side. You must maintain the par value of one share in your primary Share Account in order to maintain other Accounts at the Credit Union. The par value of one share in this Credit Union is \$5. The par value of one share for members who are 12 years of age or younger is \$5. You must maintain the disclosed minimum daily balance in your account to earn the Annual Percentage Yield.

Balance Computation Method

Dividends are calculated by the Daily Balance Method which applies a daily periodic rate to the balance in the account for each day of the dividend period. The minimum balance must be in the account to earn a dividend for that day. Dividends will begin to accrue on the business day you deposit cash or non-cash items (such as checks) to your Account.

Transaction Limitations for All Share (Savings)

Accounts- Pursuant to federal regulations (Federal Reserve Board Regulation D), during any monthly statement cycle, you are permitted or authorized to make no more than six withdrawals and/or transfers from your Savings Account(s) to another internal or external account by means of a preauthorized transfer (other than for the purpose of making a loan payment), check, draft, debit card, or other order made by the depositor and payable to third parties. If you have automatic overdraft protection from your Savings Account, Voice Information Phone System (VIPS), or Online Banking services with us, transfers from your Savings Account using these services count toward this limitation. Transfers and withdrawals performed in person or at an ATM are not included in this transfer limitation. If you exceed this transfer limitation, your Account may be subject to closure. (There are limits on the amount you may withdraw during a business day from an ATM). For all savings deposits as well as share draft accounts, the Credit Union reserves the right to require at least seven (7) days and up to sixty (60) days notice prior to withdrawal or transfer of funds.

Loan Related Shares. These Accounts are available only upon approval/processing of your applicable loan by the Credit Union. Withdrawals from the Account are prohibited, pursuant to regulations & Credit Union policies/bylaws.

Checking Accounts- No limitations on activity except for PVC Checking and Money Market accounts. See Rate Schedule for more information. Overdraft Protection from your Share (Savings) to your Checking Accounts is limited. There are limits on the amount you may withdraw during a business day from an ATM and from Point-of-Sale transaction. Checks are not returned with your monthly statement.

Debit MasterCard and Daily Transfer Limitations-

There is a limit of \$1,750 per day for signature authorization withdrawals and a limit of \$1,000 for PIN authorization withdrawals to pay for goods and services at merchants through point-of-sale transactions. There is an aggregate limit of \$400 per day for cash advances obtained at merchants or financial institutions or for ATM withdrawals.

International Membership

Accounts opened for persons without a Government Issued Tax Identification Number (Social Security Number) will not be paid dividends, including any type of referral or promotional income for opening new accounts. In addition, this membership type will not be eligible for Loans, Remote/Mobile Deposit Capture or Overdraft Privilege.
